Suggestions for improving this workshop?

None - it was all great. Well done.

None - thank you for an awesome day!

Closer to Bakersfield?

More in-depth information about the site and activities. I would have been fine with extending the day to include 2 or 3 more hours.

More like it! More often.

None. I really learned a lot and felt inspired. Thank you very much for your time, effort and dedication. It will help me to help our students!

A list of faculty that presented so I know who presented it and who to contact.

Break-out sessions for particular parts of resources.

More employers on panel.... We talk with students all the time but exposure to employers is not as easily available.

It would be neat to have this workshop in a computer lab where participants can access the website so that it is more interactive and allows for hands-on use.

I would like to see a larger student/employer panel to provide more perspectives.
