What Sets an Thinker Apart

Entrepreneurial from Others?

Beginning Thursday, September 24, 2020

A professional development opportunity is being provided for educational professionals to become certified facilitators of the ELI "Ice House Entrepreneurship Program."

- Meets once per week for four (4) weeks (9/24-10/15)
- Includes techniques, training materials, facilitator manuals, digital program preview access, and the book "Who Owns the Ice House? Eight Life Lessons from an Unlikely Entrepreneur"
- Participants receive the official Entrepreneurial Mindset Facilitator Certificate upon successful completion.

Entrepreneurship reaches far beyond the concept of traditional business creation... *it is a frame-work for thinking and acting that empowers ordinary people to achieve extraordinary things...*

From preparing students to become workforce-ready to equipping next-generation innovators in civic, for-profit or non-profit contexts, an entrepreneurial mindset surfaces possibilities, ignites ambition & persistence, and fosters attitudes/skills *enabling anyone to succeed !*

PLEASE NOTE

***There will be no cost to participants for this important training, but there is limited space available. Priority will be given to college faculty champions & administrators. Only those fully committed to complete this course in its entirety need apply.**
