Time	Agenda	Notes
8:30 am - 8:45 am	Chancellor's Office Updates Tony Cordova & Don Daves-Rougeaux	Tony Cordova, Vice Chancellor of Workforce Development, California Community Colleges, shared the following slide deck presentation. Tony emphasized that there is great importance behind the work that the consortium is doing, which is having a significant impact on students. He then proceeded to show the Start Your Cybersecurity Career at a California Community College video. Tony is asking for success stories to showcase the achievements of the CVML Region. He is also working on creating a newsletter. Don Daves-Rougeaux, Senior Advisor to the Chancellor, stated that they have been asked to share success stories, and they would like to have a variety from different colleges in the region. Tony aims to enhance the visibility of each consortium’s work and the Center of Excellence. This is to focus on the people aspect when addressing the question “How will we advance the work?” Tony shared that the Governor’s Master Plan on Career Education will be out in October 2024. Don encouraged the colleges to bring up the challenges and ideas to them, in order to, if it makes sense, launch it. There is no idea off the table. Don encourages everyone to read the Governor's Career Education Executive Order. Tony shared that colleges not meeting project targets will face funding cuts for lack of progress. Tony shared that the policy updates and announcements can be found on the California Community Colleges Chancellor’s Office website. The following conversation ensued: David Clark requested that the Chancellor’s office provide this data annually. It's important to have access to the data that supports our work. David emphasized the importance of being mindful of the wording in the Ag Tech Project. It states that once the workers are trained, they can pursue different job opportunities. However, our goal

		is for the employers to retain their workers and to elevate the skills of their agricultural workforce. Becky Barabe emphasized the importance of partnering with Adult Education when reaching out to adult students. In many cases, there is also a language barrier. Jonna Schengel shared that they will be partnering with Adult Education and will be providing Career Technical Courses to those students.
8:50 am - 9:05 am	Guided Pathways Jay Singh	Jay Singh, introduced himself and mentioned that he partnered with Lisa Robles, both Guided Pathways Regional Coordinators for the Central Valley/Mother Lode Region, and passed out the “ Who We Are ” informational document. Jay also invited the consortium members to the Guided Pathways Community of Practice meetings for the Fall 2024 semester.
9:05 am - 9:20 am	Fiscal Updates Beatrice Licon	Beatrice Licon, CVML Director of Programs & Compliance, shared that there are \$3.5 million unspent funds or funds not reported in NOVA for SWP 1-5. Please reach out to Nikolas Trujillo, State Center Community College District Director, Grants and External Funding, at nickolas.trujillo@scccd.edu or 559-243-7511. Beatrice stressed the need to submit reports as other colleges cannot submit their final reports. Beatrice asked, “which colleges will be continuing with Jobspeaker?” Bakersfield College, Reedley College, Cerro Coso Community College, Taft College, Porterville College, Fresno City College, Coalinga College, Modesto Junior College, Merced College, Madera College, Clovis College, and Columbia College will continue to use Jobspeaker. Discussion ensued about the colleges transitioning from Job Speaker to Geographic Solutions. The colleges will only be funded for one of the choices (Job Speaker or Geographic Solutions.) College of the Sequoias, San Joaquin Delta College, and Lemoore College will be transitioning to Geographic Solutions. VOTE: Becky Barabe moves to allow College of the Sequoias, San Joaquin Delta College, and Lemoore College to transition to Geographical Solutions and approve Jobspeaker for the 12 other colleges in the CVML Regional Consortium. Justin Garcia seconded the motion. The motion carried.
Steering Committee Votes (CTE Deans)		Motion/Second/Approval (MSA)

9:20 am - 9:25 am	Program Approvals (see pp. 3) & Approval of 05/09/2024 Minutes Rebecca Murillo	VOTE: Becky Barabe motioned to approve all approved programs. Grant Ermis second the motion. The motion was carried unanimously.
9:25 am - 9:30 am	Update from Rachel Mann Rebecca Murrillo	Rachel Mann, Keynote Speaker and Author , is providing a follow-up discussion after her presentation, on how AI can assist the region. The Dates proposed were September 11, 18 or 25, 2024. The deans agreed that Rachel's follow-up discussion would be more beneficial for their faculty and others in their college, rather than just for the deans. They suggested extending the invitation to faculty and others as well. They would like to schedule it tentatively for Wednesday, September 25, 2024, from 3:00 pm to 5:00 pm. Additionally, they are interested in hiring Rachel to speak to faculty and provide examples of the types of AI resources that can be used in their classrooms.
Upcoming:	Upcoming CVML SC meetings can be found here .
